1000 wh power station factory in Netherlands

Overview

Will AP1000 reactors support the Netherlands' nuclear new-build strategy?

US-based Westinghouse Electric Company has signed a contract with the Dutch government to conduct a technical feasibility study assessing the deployment of AP1000 reactors in support of the Netherlands' nuclear new-build strategy.

Will AP1000 reactors be installed at Borssele nuclear power plant?

Westinghouse Electric Company has been awarded a contract by the Dutch government to conduct a technical feasibility study on the deployment of two AP1000 reactors at the Borssele nuclear power plant site. It comes as the Ministry of Economic Affairs and Climate launches a consultation on the siting of the reactors.

Will Westinghouse build AP1000 reactors at Borssele?

Following the award of a contract in December last year to Korea Hydro & Nuclear Power (KHNP) to conduct a feasibility study into the construction of two Korean-supplied reactors at Borssele, Westinghouse will now evaluate the construction of AP1000 units there.

Who owns a nuclear plant in the Netherlands?

Reports in the Netherlands said the three were Westinghouse, the French state-owned company EDF and South Korea's Korea Hydro & Nuclear Power (KHNP). There was no mention of two other major nuclear plant suppliers – Russia's state corporation Rosatom and China's state-owned China National Nuclear Corporation.
