

250kW Mobile Energy Storage Container Used in a Latvian Cement Plant

Overview

Where is the first battery energy storage system in Latvia?

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in Targale, Ventspils region.

What is a 20ft container 250kW 860kwh battery energy storage system?

Equipped with automatic fire detection and alarm systems, the 20FT Container 250kW 860kWh Battery Energy Storage System is the ultimate choice for secure, scalable, and efficient energy storage applications. Email us with any questions or inquiries or use our contact data.

What is a 20ft container energy storage system?

It also includes automatic fire detection and alarm systems, ensuring safe and efficient energy management. The 20FT Container 250kW 860kWh Battery Energy Storage System is a highly integrated and powerful solution for efficient energy storage and management.

Can a cement-based energy storage system be used in large-scale construction?

The integration of cement-based energy storage systems into large-scale construction represents a transformative approach to sustainable infrastructure. These systems aim to combine mechanical load-bearing capacity with electrochemical energy storage, offering a promising solution for developing energy-efficient buildings and smart infrastructure.
