

2MW Bucharest Photovoltaic Container for Oil Refineries

Overview

Which Romanian refinery has the most liters per filling station?

The company boasts to have achieved a record throughput in Romania: 5 million liters per filling station in 2019. Petromidia refinery is the largest in Romania and one of the most modern in the Black Sea region with a Nelson complexity index of 11.4. Ranked 9 th among 250 refineries in Europe and Africa by Wood MacKenzie in 2018.

How many GW will OMV Petrom have in 2023?

The projects will be developed, built and operated in partnership with Renovatio. Thus, the two partners will have a total joint installed capacity of over 1.1 GW by 2030. OMV Petrom is the largest integrated energy producer in Southeastern Europe, with an annual Group hydrocarbon production of approximately 41 million boe in 2023.

What are Romania's key refineries?

In refining, Romania's key refineries are: Petrotel – Lukoil (2.7 Mt/y). OMV Petrom operates the Petrobrazi refinery, Rompetrol operates the Petromidia refinery (in Constanta) and Vega refinery (in Ploiesti), as well as a petrochemical plant (in Navodari, Constanta), while Lukoil operates Petrotel-Lukoil, a refinery it acquired in 1998.

What is Vega Refinery?

Vega refinery is the oldest processing unit in Romania (115 years). It is the only domestic producer of bitumen and hexane. Its total feedstock in 2019 was 436 kt while hexane production was 92 kt and bitumen production was 120 kt. Vega works in perfect synergy with the Petromidia refinery.
