

30kw hybrid inverter in China in Canada

Overview

What is a 30kW inverter?

This is a 30kW Inverter, an efficient and highly reliable energy storage solution developed for small and medium-sized microgrids, supporting 30 kW PCS solar integration with competitive 30 kW PCS price.

How many inverters can a 30kW inverter support?

The adaptable and flexible design enables easy expansion from 30kW to an outstanding 300kW, meeting your increasing energy demands with up to 10 inverters in parallel and 16 batteries per inverter. With our lightning-fast 5ms transfer backup, you can enjoy uninterrupted power and keep your business running even during grid interruptions.

Which inverter is suitable for grid-tied and backup applications?

Our inverter is suitable for grid-tied and backup applications, because of its powerful 200A grid pass-through capability. You are making a simpler installation by using the native 120/208V 3-phase output, which is perfect for light commercial buildings.

What is energy storage inverter?

1. Product Introduction This energy storage inverter is designed for small and medium-sized energy storage microgrids, offering high efficiency and reliability. It supports photovoltaic integration, features both on-grid and off-grid switching capabilities, and allows for multiple parallel operations.
