# 40-foot folding container for aquaculture

## Overview

---

What is a 40 footer container?

There is also another type of 40 footer container called the 40 Footer High Cube Container where the dimensions are around the same as the 40 footer container except for its height. It's length is around 40 feet or around 12.192m, width around 2.438m and height around 2.896m (which is taller than the 40 footer container, hence its name high cube).

What is a 40 ft container used for?

40ft units can be used for commercial, residential, and shipping industry applications. There are a few types of 40-foot shipping containers, but the most common one is the standard dry 40' shipping container. These storage containers are easy to load and unload and can hold products that are dense or have a lot of weight.

What is a folding frame fish tank?

Aquaculture fish tanks and fish farming tanks need to be easily accessible, with an open top, space conscious for growing fish, easy to clean and customize, and be space conscious when being set up. Folding Frame Tanks offer the solution for portable, easy-to-store water storage for fish farming.

What is an open top collapsible aquaculture tank?

The open top collapsible aquaculture tanks allow you to monitor the different shrimp or fish and adjust the necessary air pumps and chemicals. Collapsible fish farming tanks can also be made to fit your exact gallon capacity specifications. These fish farming tanks are easy to clean and can be deployed almost anywhere.

## 40-foot folding container for aquaculture
