60kWh Foldable Container for Data Centers

Overview

What are power container solutions?

The power container solutions feature high scalability to expand along with business growth. The agile and modular architecture can also combine with other individual modular subsystems including cooling, service, and IT containers for a complete containerized data center.

Is data center scalability a challenge for future it expansion?

IT managers are now facing the challenges of data center scalability for future IT expansion. As a world-leading data center solutions provider, Delta is introducing power container solutions for MW data center applications. The power container solutions feature high scalability to expand along with business growth.

Why is Delta a trusted backup power behind large data centers?

Delta is the trusted backup power behind large data centers enabling people to enjoy a better digital life. One of the world's leading colocation service providers selected Delta's power container solution to create the edge network in the Asia Pacific region for its client's edge computing applications.
