

6V 20W Solar

Overview

What is a 6 volt solar panel?

WSL Solar's 6V solar panels are built with the latest most efficient crystalline silicon solar cells or super high efficiency Sunpower solar cells. These 6 volt solar panels are great for charging your 3.7V DC batteries and ideal for use in off grid applications such as GPS tracking, educational kits, small electronic devices, LED lighting etc.

What is a 12V 10W solar panel?

An ideal panel for steady battery charging and maintenance or your small off grid lighting project. This high quality 12v 10w Solar Panel works in both sunny and overcast conditions and is fully weatherproof. Comes supplied with 2 meters of cable, a blocking diode to prevent reverse charging and crocodile clips for easy battery connection.

What is a 20kW solar power system?

Get Quotation - Contact Us. 20KW solar power system is great for small scale business and organizations. On grid system can generate 80 units/day or 2400 units/month as an average over the year. It requires 100 square meter + shadow gap area for installation. You will get a full ROI (return on investment) within 3 to 5 years.
