

Aarhus High Power Uninterruptible Power Supply Denmark

Overview

Does Aarhus have a power supply system?

The Port of Aarhus has set itself the goal of substantially reducing CO₂ emissions and creating a sustainable energy supply for ships while docked in the port. To this end, a modern onshore power supply system is being established at the existing container terminal.

Does the port of Aarhus have a shore power plant?

The Port of Aarhus has an onshore power plant on its way to container ships, which will be the first of its kind in Denmark. And a new agreement stipulates that it must be supplied by Danish PowerCon. We are pleased that we can once again collaborate with PowerCon to establish a shore power facility.

Is Aarhus a sustainable port?

The Port of Aarhus, Denmark's largest commercial port, has announced the finalization of an agreement to develop one of the most advanced shore power facilities in Europe. This initiative represents a significant step forward in reducing emissions and enhancing sustainable port operations in Northern Europe.

Why is the port of Aarhus a pioneering port development project?

The provision of the new onshore power supply system in the Port of Aarhus is a pioneering port development project in terms of sustainability and CO₂ reduction.
