

# **All accessories for solar panels and solar power generation**

## Overview

---

What are solar panel mounting accessories?

Solar panel mounting accessories are the backbone of every solar power plant as they provide support to the modules. These support structures raise solar panels at appropriate angles to ensure that they receive maximum solar irradiation.

What do I need to buy a solar panel?

To purchase a solar panel system, you'll need several accessories. MC4 connectors, extension cables, monitoring systems, AC/DC disconnects, and racking mounts are the most important ones. Additional tools and parts may be required based on your setup.

What do you need to set up a solar panel?

To set up a solar panel for your house or RV, you need the right accessories. MC4 connectors, extension cables, monitoring systems, AC/DC disconnects, and racking mounts are the most important ones. Each system will be different, but these provide an overview of what you need to buy.
