

# **BESS containerized generator in Dubai United Arab Emirates**

## Overview

---

What is a Bess energy storage system?

We offer energy storage systems of 50kWh~1MWh, used for commercial and industrial applications. BESS provides a wide range of technical, economic, and environmental benefits, making it a key enabler of the transition to a cleaner, more resilient, and efficient energy system. Max. Charge/Discharge Rate The project began in Ontario, Canada in 2020.

Will the UAE deploy 300mw/300mw of Bess capacity by 2026?

It follows EWEC's recommendation made this time last year that the UAE should deploy 300MW/300MWh of BESS capacity by 2026. It didn't reveal when it hoped the 400MW (MWh capacity undisclosed) would come online, so it's not clear whether this is part of a longer-term target or whether its forecasted needs have increased.

What is Bess & why is it important?

BESS plays a critical role in modern energy systems, enabling the transition to cleaner energy and smarter grids. It offers energy ranging from 50kWh to 1MWh and covers most of the commercial and industrial application scenarios, such as load shifting, renewable clipping, and back-up power, etc.

What are the advantages of Bess vs traditional grid storage?

Othman Al Ali, CEO of EWEC, said: "Compared to traditional grid storage solutions, BESS offers unmatched advantages, including increased flexibility, scalability, cost-effectiveness, and improved efficiency."
