Base station dedicated container

Overview

What is a containerized mobile substation?

Containerized mobile substations are sheltered and address applications in challenging environmental conditions including areas of high pollution, and humidity. Customers requiring shorter overall delivery times and minimal on-site work have been the main drivers for Hitachi Energy's development of pre-fabricated indoor substations.

What is a skid-mounted substation?

Skid-mounted Substations offer fast and easy deployment, minimizing civil works as well as installation and commissioning effort on site. Containerized mobile substations are sheltered and address applications in challenging environmental conditions including areas of high pollution, and humidity.

What is a small distribution substation?

Smaller distribution substations are subdivided into container-sized modules, which can be manufactured, assembled and tested at the factory, allowing easy transport and fast installation and commissioning at site.

Why did Hitachi energy develop a pre-fabricated Indoor Substation?

Customers requiring shorter overall delivery times and minimal on-site work have been the main drivers for Hitachi Energy's development of pre-fabricated indoor substations. [Learn More](#)
