

# **Bess system for solar factory in Cebu**

## Overview

---

When will the Visayas energy project start?

The project broke ground on Thursday, July 17, and is scheduled for commissioning by the first half of 2026. It is expected to enhance energy reliability in the Visayas grid and support the region's continued economic expansion.

Why is Aboitiz Power launching a hybrid Bess?

The hybrid BESS forms part of Aboitiz Power's broader transition strategy to support the Philippines' renewable energy roadmap. Congressman Chan's policy support is expected to accelerate investments in energy infrastructure across Central Visayas.

What is a hybrid energy storage system in Central Visayas?

Considered one of the first large-scale energy storage systems in Central Visayas, the hybrid BESS will provide ancillary services by storing surplus electricity and releasing it to the grid when needed to help stabilize power supply.

Where will the Bess rise in Mactan - Lapu-Lapu City?

The BESS will rise within the compound of EAUC, a subsidiary of Therma Power Inc. under AboitizPower, which operates a 50-MW bunker oil-fired plant inside the Mactan Export Processing Zone I in Lapu-Lapu City.
