# Can Paris install solar air conditioning in winter

## Overview

---

Do Paris apartments have air conditioning?

Many hotels, homes and apartment rentals in Paris don't even have it at all! We've found with the large windows and French doors in most Paris apartments that the temperatures are usually quite comfortable. However, we know that many of our guests appreciate air conditioning, and we supply it in our Paris vacation rentals whenever possible.

Does Paris have AC?

Summer is one of the most beautiful seasons in Paris. However, coping with the city's summer heat can be daunting, especially for expats used to having AC units in their country homes when, in contrast, most apartments in Paris do not have air conditioning. Here is an AC installation guidelines in Paris for you. Can you have an AC in Paris?

How to install air conditioning in Paris?

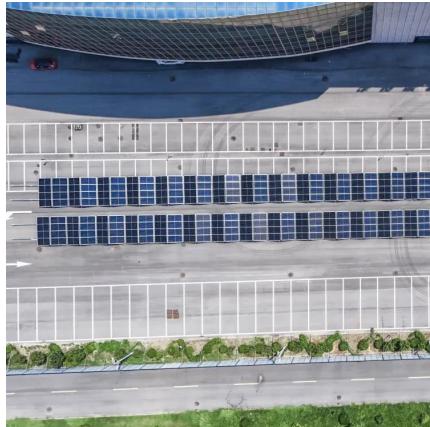

Having air conditioning installed in Paris is challenging because there are several administrative processes to go through for air conditioning installation in France. One must get permission from the city town hall and the condominium (syndic). To install a split or multi-split air conditioner, one must set up an internal and an external unit.

Does France have air conditioning?

However, it can also bring up some unexpected differences compared to life back home. In France, and many other European countries, air conditioning is not as commonly used as it is in America, Canada, Australia and many other countries. Many hotels, homes and apartment rentals in Paris don't even have it at all!
