Chilean Energy Storage Container 80kWh Trading Terms

Overview

Why is Chile pursuing energy storage in Antofagasta?

Chilean president Gabriel Boric (centre) at the inauguration of an energy storage plant in the northern region of Antofagasta in April 2024. Chile has strong conditions for wind and solar energy, and is pursuing storage to help overcome intermittent supply (Image: Ximena Navarro / Dirección de Prensa, Presidencia de la República de Chile).

How many energy storage projects are in Chile?

Currently, 36 of the 129 large-scale projects Latin America projects with an energy storage component under development are in Chile, including 32 out of 71 of the region's early works projects. The storage technologies either in use or being considered include:.

Will Chile be able to develop energy storage projects in 2024?

In 2022, Chile passed an energy storage and electromobility bill, which made stand-alone storage projects profitable, but the market is still expecting new rules on capacity payment for storage projects, which are to be approved in 2024. Chile has also put in place an auction procedure to award public land for the development of BESS projects.

Does Chile have a capacity payment system?

Since 1982, the Chilean market has recognized capacity payment for plants that contribute adequacy to the electrical system. With Law 20.936 of 2016, the existence of energy storage systems (Energy Storage Systems or SAE) and hybrid energy systems (Renewable Plants with Storage Capacity or CRCA) was recognized in the law.
