

# **China Mobile bids for 5G base station power supply**

## Overview

---

Will China build a 5G base station next year?

Technicians from China Mobile check a 5G base station in Tongling, Anhui province. [Photo by Guo Shining/For China Daily] China aims to build over 4.5 million 5G base stations next year and give more policy as well as financial support to foster industries that can define the next decade, the country's top industry regulator said on Friday.

Which telco will supply 5G base stations in 2023 & 2024?

Huawei Technologies has secured a major contract that will see it supply over half of the 5G base stations for telco China Mobile between 2023 and 2024. In total, Huawei has won 52 percent of China Mobile's 5G base station work, as part of the largest portion of the contracts put out for tender this year, according to Yicai Global.

Who won a 5G contract in China?

Huawei wasn't the only Chinese vendor to win a sizeable chunk of the tender, with ZTE the second-largest winner with around 26 percent of the contract, equivalent to 23,227 5G base stations. Smaller contracts were also awarded to Datang Mobile Communications Equipment, Ericsson, and Nokia Shanghai Bell.

Which companies have been awarded a 5G contract?

Smaller contracts were also awarded to Datang Mobile Communications Equipment, Ericsson, and Nokia Shanghai Bell. China Mobile plans to operate more than 1.6 million 5G base stations this year, increase its number of cloud servers by more than 240,000 units, and add 40,000 external data center racks.

## China Mobile bids for 5G base station power supply

### [China Mobile - Renewable energy and green base station ...](#)

Aug 7, 2025 · Through these interventions, China Mobile added 467,000 5G base stations while achieving a 2% reduction in overall base station energy consumption in 2024, demonstrating ...
