

# **China solar power to battery in Algeria**

## Overview

---

When will a 300 MW solar power plant be built in Algeria?

The state-owned China State Construction Engineering Corporation (CSCEC) began building a 300 MW solar power plant in Algeria's Oued Province in March 2024 as part of the Solar 1,000 MW program. The project is slated for completion by late 2025 or early 2026.

What is Algeria doing with solar energy?

Building on the Solar 2,000 MW and Solar 1,000 MW programs launched by Algeria's state-owned company Sonelgaz, which include a wide range of solar energy initiatives, the government aims to diversify its revenue streams and reduce reliance on natural gas, which is currently primarily used for power generation in the country.

How many solar panels does Algeria have?

Algeria already has three solar panel facilities totaling 260 MW of annual solar panel production capacity (about 40 percent of which became operational in 2020). The road ahead Algeria is making notable progress in the development of its renewable energy sector, yet challenges remain.

Could Algeria become a solar supply hub?

Given Algeria's location at the crossroads of Europe, the MENA region, and sub-Saharan Africa, the nation could conceivably become a manufacturing supply hub for the renewables industry. Algeria already has three solar panel facilities totaling 260 MW of annual solar panel production capacity (about 40 percent of which became operational in 2020).

## China solar power to battery in Algeria

---

### [Chinese firm to build solar panel plant in Algeria](#)

Apr 23, 2025 · A Chinese company is planning to build a solar panel plant in Algeria to take advantage from a vast market in the African continent. Longi, one of the world's largest ...

### [Top 5 Solar Projects to Watch in Algeria](#)

Jan 1, 2025 · 300 MW Oued Solar Plant - CSCEC
