

# **Copenhagen solar container battery Factory**

## Overview

---

Does European energy have a battery storage project in Denmark?

European Energy breaks ground on battery storage in Denmark together with Kragerup Estate. Project to provide operational experience for European Energy in integration of battery solutions. Copenhagen, Denmark, 20th of January 2025 – European Energy has started on its first large-scale battery storage project.

What is European energy's new battery storage project?

This is done in collaboration with Kragerup Estate. This is the first battery storage project that European Energy has undertaken in Denmark, and it will provide valuable operational experience in integrating battery solutions with the grid for the company.

Where is better energy deploying its first battery storage project?

Developer Better Energy is deploying its first major battery storage project, a 10MW/12MWh system, at one of its solar PV plants in Denmark.

Why should European Energy Invest in battery storage?

With the installation of a state-of-the-art battery, European Energy is positioned to enhance the stability and resilience of the electricity grid. “Battery storage is a key component in the development of future energy projects.
