

# Czech solar tile supplier

## Overview

---

What is solar tile?

Solar tile, which combines solar panels and roof tiles, integrates photovoltaic and architecture. Crystal silicon photovoltaic technology and building tile structure are innovated to eliminate the complex project of secondary installation and replace traditional cement tiles and clay tiles with one-time paving.

What are solar roof tiles?

Like solar panels, solar roof tiles are designed to capture the energy from the sun that is shining on your roof and turn that energy into a usable power source for your home.

What is etile solar roof?

Meet the eTile solar roof series - aesthetic photovoltaics integrated into the roofing. Polish manufacturer, premium solutions for the demanding.

Are autarq solar roof tiles bonded?

During production, Autarq solar modules are bonded inseparably with original roof tiles. We only use roof tiles from renowned manufacturers: That makes Autarq solar roof tiles just as durable as regular tiles. With a 25-year performance guarantee, an Autarq solar roof will generate clean energy to supply your home for the next generation.
