

Dakar energy storage product prices

Overview

When will a battery energy storage system start in Senegal?

Construction of the battery energy storage system is expected to commence in early 2024 at the Tobène substation in Thies and is expected to become operational in 2025. Once complete, it will be one of the largest of its kind in West Africa, and will help Senegal to avoid approximately 37,000 tonnes of carbon dioxide emissions each year.

Why is battery storage important in Senegal?

Battery storage offers incredible opportunities for Senegal to reap the benefits of renewables, while ensuring people get a secure, reliable supply of energy. We are excited to begin a promising new chapter in Senegal and further strengthen our work in the renewable energy sector.”.

Where can I buy Dakar products?

You can buy Dakar products from our online shop on [Dakar.com](https://dakar.com). For larger quantities or specific requirements, consider becoming an official distributor of Dakar products in your country.

How much energy does Senegal use?

Total energy consumption is growing rapidly (+5%/year, on average since 2013, including + 16% in 2023) and reached 6.2 Mtoe in 2023, almost 2.6 times its 2000 level. The Yakaar-Teranga natural gas field, located offshore Senegal, is developed by Kosmos Energy (90%).
