

# **Danish Aarhus smart energy storage device company**

## Overview

---

Who is Danish renewables?

Danish Renewables is a sustainable energy company founded in 2017 by founder Esben Christensen in Copenhagen, Denmark, with a primary focus on the solar and wind energy sectors.

What is Danish Center for energy storage?

Danish Center for Energy Storage, DaCES, is a partnership that covers the entire value chain from research and innovation to industry and export in the field of energy storage and conversion. The ambition of DaCES is to strengthen cooperation, sharing of knowledge and establishment of new partnerships between companies and universities.

How can Denmark develop a new energy technology?

If Denmark shall succeed in the development and implementation of new energy technologies such as energy storage and conversion, a broad knowledge of political and legal frameworks, economic models, the role of civil society as well as new forms of organization and collaboration across sectors and disciplines is necessary.

How did Copenhagen Energy Invest in Everspring?

Copenhagen Energy reached a final investment decision (FID) on the Everspring portfolio earlier in 2025. In June, it secured financing for the two sites under an agreement with regional bank Ringkjøbing Landbobank. In July, Danish company Energrid was hired as the engineering, procurement, and construction (EPC) contractor for the projects.
