

# **Desert Energy Storage solar Project Quote**

## Overview

---

Who owns desert quartzite Solar+Storage Project?

Stay up to date with the latest news from EDF power solutions. SAN DIEGO (Jan. 31, 2025): EDF Renewables North America (EDFR) and Power Sustainable Energy Infrastructure Inc. (PSEI) today announced that their jointly owned Desert Quartzite Solar+Storage Project achieved operational status in December 2024.

What is desert quartzite solar+storage?

This financing marks the first project leverage application in the United States for EDF Renewables in over a decade. Desert Quartzite Solar+Storage, located in Riverside County, California has a total capacity of 375 MWdc solar combined with a 150 MWac/4-hour battery energy storage system (BESS).  
### Media Contacts:.

Does EDF renewables provide solar & energy storage in California?

EDF Renewables – a regional subsidiary of French energy giant EDF – did not specify the suppliers of the solar or storage elements of the project. The battery energy storage system (BESS) is a 4-hour, 150MW installation. Solar projects in California are increasingly paired with energy storage to adapt to the state's grid and energy mix.

Does EDF renewables have a 375mw/600mw solar-plus-storage project in California?

EDF Renewables North America has begun operations on a 375MW/600MWh solar-plus-storage project in California.
