

MODERNIZATION SOLAR

# Dublin Solar Air Conditioning

## Overview

---

What types of air conditioning systems does Dublin air install?

Dublin Air installs many air-air conditioning systems, including multi-split systems, ducted units, ductless mini-splits, heat pumps, centralised air conditioning systems, and VRF/VRV systems. We cater to both residential and commercial environments, offering tailored solutions to meet specific climate control needs and energy efficiency goals.

How much does air conditioning installation cost in Ireland?

Another factor that can affect the cost of air conditioning installation is the absence of existing ductwork and the capability of the building's electrical system. As regards heat pump installation, air-source heat pumps cost between €8,500 to €14,500. Meanwhile, ground source systems range from €12,500 to €23,500, according to Electric Ireland.

Does Dublin Air offer HVAC services?

Yes, Dublin Air offers comprehensive service and repairs for all HVAC systems, regardless of whether we originally installed them. Our team is equipped to handle a wide variety of systems with the expertise necessary to ensure optimal performance.
