

# **Dublin solar Energy Storage Cabinet Battery Warranty**

## Overview

---

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

Which battery energy storage systems are available in 2023?

The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage. The Poolbeg Battery Energy Storage System in Dublin went into operation in November 2023 and has the capability of providing 75MW of fast-acting energy storage.

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.

What is domestic battery storage?

Domestic battery storage is a rapidly evolving technology that is typically used alongside solar photovoltaic (PV)\*. It allows surplus electricity generated by solar panels to be stored for later use, rather than exported to the National Grid. If you have solar PV, you can generate plenty of electricity when the sun is shining.
