

Energy Efficient Solar System Sales in Somaliland

Overview

Can solar panels be used in Somalia?

Somalia's abundant sunlight makes it ideal for solar energy. Solar panels convert sunlight into electricity, which can be used immediately or stored in batteries for later use. Our systems are designed to withstand Somalia's hot climate and perform efficiently even on cloudy days.

Why should I switch to solar energy in Somalia?

Solar panels convert sunlight into electricity, which can be used immediately or stored in batteries for later use. Our systems are designed to withstand Somalia's hot climate and perform efficiently even on cloudy days. What are the benefits of switching to solar energy for my home or business?

.

How much electricity does Somalia produce per year?

of electric energy per year. Per capita this is an average of 20 kWh. Somalia can completely be self-sufficient with domestically produced energy. The total production of all electric energy producing facilities is 378 m kWh, also 104 percent of own requirements.

Why is electricity a luxury in Somalia?

Electricity is a luxury in Somalia because most of the country's working population is jobless. According to the U.N., more than half of the country's population (those between the ages of 15 and 64) is unemployed, with a youth unemployment rate of 67 percent. Additionally, 40 percent of Somalia's population lives below the poverty line.
