

# Energy storage 770ah battery

## Overview

---

What is a 350ah battery?

Based on the 350Ah thermally compounded laminated battery cells, this industry-unique dual-layer liquid-cooled energy storage system offers exceptional temperature control, ensuring worry-free operation for GWh-level energy storage power stations.

What is a 222ah battery system?

Based on the 222Ah thermally compounded laminated battery cells, the system adopts a modular design, making it compatible with photovoltaic, storage, diesel, and microgrid systems, and supports both grid-connected and off-grid operations.

What is a short-blade CTR energy storage system?

Based on the 350Ah lamination short-blade battery cells, the industry's first short-blade CTR energy storage system has been introduced, further advancing space efficiency, cost-effectiveness, and full-life-cycle performance.

How many prefabricated battery compartments did svolt provide?

For the Grid-Connected 400000 KW Photovoltaic + Energy Storage Marketization Project of Guangdong Hydropower Group in Awat County, SVOLT provided a total of 80 prefabricated battery compartments, with a single unit capacity of 5.0176 MWh and a total capacity of 401.408 Wh.
