# Energy storage power cabinet 5kWh

## Overview

---

What is a 5kw/5kwh mobile energy storage vehicle?

The 5kW/5kWh mobile energy storage vehicle integrates energy storage batteries and hybrid inverters, which is equivalent to a small mobile power station. It is both portable and functional. As a portable energy storage system, it is widely used in outdoor operations, emergency power supply, rescue and other occasions.

Which low voltage stacking products are suitable for home energy storage?

Atom series of Low-voltage stacking products using 5.12kWh lithium iron phosphate battery as a single module, supporting 5kWh~15kWh capacity flexible options and its fashionable appearance design makes it more suitable for home energy storage application scenarios. Also, it equips with wifi module, APP monitoring and remote upgrade function.

What is a high voltage rack-mounted energy storage system?

Products > 60kWh High Voltage Rack-mounted Energy Storage System consists of 12 battery packs, each of which consists of 16S-100Ah cells. These are connected in series to a 30KW three-phase hybrid inverter, enabling seamless integration with the grid and loads.

What is a home energy storage system?

Home energy storage systems for low-power network switches and low-power household appliances. The modularity of battery system makes it easy to be installed with internal plugs, requiring no extra cable connections, while with all the external cables integrated onto one plug, its connection to the inverter is much more simplified.
