

Explosion-proof fan for energy storage cabinet

Overview

What are explosion proof fans & blowers used for?

Our portable explosion proof fans and blowers are designed for hazardous applications requiring ventilation, including, but not limited to: clean rooms, laboratory hoods, oil refineries, grain mills, chemical plants, welding shops, chemical storage areas and battery changing areas.

What is an ex fan?

Compact, explosion-proof solution for ventilation of battery charging and industrial facilities EX fan designed for use in battery-charging rooms, fume cupboards and other demanding environments where explosive atmospheres can occur. The fan combines a compact design highly resistant to environmental stressors with a reliable ATEX rated AC motor.

What is an air circulation explosion proof fan?

Air circulation explosion proof fans include stand-mounted, wall or ceiling mounted, or beam-mounted options and are designed as a spot cooling fan for use in atmospheres that include flammable or explosive vapors, gas, or dusts. The non-sparking aluminum fan blades offer increased safety in hazardous locations.

Are explosion proof ventilator fans and blowers class rated?

The explosion proof fans and blowers we offer are all class rated, ideal for hazardous environments where the removal of stale air is required for clean and safe working conditions. These ventilator fans and blowers are based on CFM ratings, built with explosion proof materials, and can clear air laden with toxic fumes or dust.

Explosion-proof fan for energy storage cabinet

Explosion-proof fans with ATEX

Certified explosion-proof fans and ventilation solutions for a wide range of applications in storage rooms, process engineering systems, workshops, ...

Explosion-proof fans with ATEX

Certified explosion-proof fans and ventilation solutions for a wide range of applications in storage rooms, process engineering systems, workshops, laboratories, etc.

Explosion Proof Exhaust Fan, and Explosion Proof Fans

Cincinnati Fan offers a wide variety of explosion resistant exhaust fans and explosion proof fans with AMCA Types A, B or C spark resistant construction.

Explosion Proof Fans & Blowers

Our portable explosion proof fans and blowers are designed for hazardous applications requiring ventilation, including, but not limited to: clean rooms, laboratory hoods, oil refineries, grain ...
