US electric vehicle maker Tesla shipped Megapack energy storage systems from its Megafactory in Shanghai's Lin-gang Special Area to Australia on March 21, according to the company.

Did Tesla export its first batch of energy-storage batteries to Australia?

SHANGHAI, March 21 (Xinhua) -- Tesla's new Megafactory in east China's Shanghai on Friday exported its first batch of Megapack energy-storage batteries, the company announced. It took the new Megafactory just over a month after its production launch to achieve its first export, with the batteries being transported from Shanghai Port to Australia.

Where will Tesla's Megapack energy storage systems go?

The first batch of Tesla's Megapack energy storage systems produced at its Shanghai Megafactory is set to depart the port heading for Australia on Friday, the company told the Global Times on Friday. The batteries produced at the Shanghai facility will serve both the domestic and wider Asia-Pacific markets.

What is Tesla's new energy storage megafactory?

The energy storage Megafactory is the first of its kind built by Tesla outside the US and the company's second plant in Shanghai, began mass production just eight months after breaking ground, serving as a new example of "Tesla speed" in China, Tesla said in a press release sent to the Global Times earlier in February.
