

# Finland lithium energy storage power supply manufacturer

## Overview

---

Why should you invest in the battery industry in northern Europe?

Northern Europe is an excellent location for the battery industry, as the availability of raw materials and clean energy is good, production chains are transparent, and sources of battery materials can be traced. Sweco's international team is dedicated to support investors in a developing of a sustainable battery industry across Europe.

Why is the battery industry growing in Europe?

The battery industry in Europe is growing rapidly, providing solutions for sustainable mobility, the fight against climate change and the green transition in energy production.

What is the European battery value chain?

The European battery value chain responds sustainably to the global need for lithium-ion batteries. Sweco is committed to building a carbon-neutral battery value chain that takes into account social, environmental and social responsibility.
