Finland's new solar container battery pump

Overview

Where is Finland's new battery storage facility located?

In northern Finland, less than 100 kilometres south of the Arctic Circle, a new battery storage facility is now supporting the stability of the regional power grid. The plant, equipped with 26 PowerTitan 1.0 containers from Sungrow, delivers 30 MW of output and 60 MWh of storage capacity.

Can battery storage support Finland's power grid?

One of the world's northernmost battery storage systems is now supporting Finland's power grid as part of a joint venture between Sungrow and FRV AmpTank. In northern Finland, less than 100 kilometres south of the Arctic Circle, a new battery storage facility is now supporting the stability of the regional power grid.

Where in the world is a Battery Park in Finland?

How can a greener energy supply be achieved in Finland?

The project in Simo is a prime example of how the current transition to a greener energy supply can be achieved in Finland: through the intelligent combination of renewable energy sources with powerful storage solutions. The result is a clean, stable and future-proof power grid. (hcn)
