

# **Georgia Energy Storage Power Plant Dedicated**

## Overview

---

How many energy storage facilities will Georgia have?

This deal, one of the largest of its kind in the United States, will see the installation of eleven energy storage facilities across eight locations throughout the state. The deal, while close to being finalized, is still pending approval by the Georgia Public Service Commission (PSC), but that approval is expected to be granted.

What is Georgia Power's 530-megawatt battery storage system?

Georgia Power breaks ground at the McGrau Ford Battery Facility in Cherokee County on April 4, 2025. This 530-megawatt battery energy storage system will consist of two phases, approved in the 2022 Integrated Resource Plan (IRP) and 2023 IRP Update. Courtesy: Georgia Power.

Does Tesla have a Megapack contract with Georgia Power?

Tesla has landed a massive US\$2.7 billion contract with Georgia Power to deliver more than 3 gigawatts (3,022 megawatts) of battery energy storage powered by its Megapack technology.

Will Georgia Power's new storage capacity meet winter peak demand?

Georgia Power emphasized that the construction timelines for these projects are designed to meet anticipated winter peak demand beginning in 2029. The utility stated that the new storage capacity will provide critical backup power and help balance the grid during high-demand periods, particularly as older coal and gas units are retired.
