

Georgia single-family solar power generation system

Overview

What is Georgia Power's simple solar program?

Georgia Power's Simple Solar program allows all customers to support and foster the growth of solar energy by enabling Georgia Power to purchase and retire Renewable Energy Credits (REC) generated from solar energy resources.

Is Georgia Power receptive to community solar?

While Georgia Power has historically pushed back against community solar, Bates said, “ Georgia Power seems to be receptive to community solar.” Georgia Power needs more electrons, he said.

Does Georgia have a community solar system?

Bates said Georgia’s signed commitment to work with Capital Good fund to finalize a viable community solar model is most significant. “This is Georgia’s first formal utility-backed move toward a low-income-focused community solar structure tied to Solar for All funding,” he said.

Will Georgia Power support community solar?

Georgia Power’s agreement to provide support for community solar does not mention whether it would enable private developers to own community solar projects, nor does it provide any other details to what the program would entail. However, to Bates, the agreement is good news.

Georgia single-family solar power generation system

[GA_CommunitySolar_FactSheet_F](#)

Feb 7, 2025 · Community solar is a small solar array (up to 5 mega-watts on 25 acres or less) that gives nearby residents, businesses, and nonprofits the option to receive sav-ings on their ...
