## Overview

---

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

What is a photovoltaic-Storage Integration Project?

Photovoltaic-Storage Integration Projects - Promoting Renewable Energy Utilization Combining photovoltaic (PV) systems with ESS forms an integrated energy supply system that maximizes solar energy utilization and storage.

How to reduce energy consumption in a business?

Many enterprises with high energy consumption began to reduce the power grid consumption by installing photovoltaic systems and battery energy storage, that is peak shaving. SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions.
