# Guatemala City Power Base Station Tender Announcement

## Overview

---

When will Guatemala Open a power capacity tender?

Guatemala will open a tender for 1.2GW of power capacity on Thursday. The power capacity tender will include supply contracts for 15 years. It will have two components, one to add capacity to existing plants and another for new technologies. It will be the first tender of this kind in eight years.

How does Guatemala get its electricity?

Velasquez said this could include microgrids and distributed generation using solar technology. Half of Guatemala's electricity currently comes from hydroelectric sources, with another 45pc coming from thermal generation and the rest from other technologies. Guatemala will open a tender for 1.2GW of power capacity on Thursday.

Does Guatemala have a new energy auction?

Guatemala invites bidders for new energy auction with renewables at the center. (Illustrative Photo; Photo Credit: Bilanol/Shutterstock.com).

When will CNEE accept technical bids?

Launched on April 24, 2025, the agency will accept technical bids till October 31, 2025. Details are available on the National Electric Energy Commission's (CNEE) website. Guatemala has a hydropower-dominated energy system, thanks to which renewable energy share stood at 71% in 2023. Among renewables, the share of solar was 4%.
