

Ho Chi Minh Vietnam Solar Fan

Overview

Why is solar important in Vietnam?

WHY VIETNAM?

Solar is a significant part of Vietnam's renewable energy strategy. State-owned utilities are investing in utility scale floating solar projects, the government is offering generous incentives for rooftop solar and large energy users are adopting onsite solar at an increasing rate.

Will solar power become the dominant energy source in Vietnam in 2050?

Solar power will become the dominant energy source in Vietnam's energy mix in 2050 when the Vietnamese economy is set to be decarbonised. Reserve your spot today and be part of shaping tomorrow's energy landscape at Solar & Storage Live Vietnam.

What is solar & storage live Vietnam?

At Solar & Storage Live Vietnam, we'll explore: MOUNTING, ASSEMBLY & RACKING Getting to grips with the major issues affecting large-scale solar project developers and their partners. Driving the proliferation of commercial & industrial rooftop solar projects across Vietnam, greening operations and reducing operating costs.
