

Household solar container prices in Krakow Poland

Overview

Why should you invest in photovoltaic panels in Poland?

Photovoltaics, like heat pumps, have become one of the fastest-growing energy sectors in Poland. Investing in photovoltaic panels is not only a way to save money but also to increase independence from rising electricity prices. By generating electricity from renewable energy sources, you can protect the environment while reducing your bills.

When can I use the photovoltaic discount system in Poland?

Owners of photovoltaic installations installed in Poland before March 31, 2022, can still benefit from the previous discount system. Those who installed panels after this date could use the old system until July 1, 2024.

What is MSC (mobile solar container)?

Our device - MSC (Mobile Solar Container) is a transportable device that utilizes solar energy and converts it into electric energy. It is designed to operate within various and hard to reach locations, where there is no access to electric energy or its reception is significantly limited.
