Do solar panels save money?

Aside from saving on electricity bills, solar panel installations also help a household earn money just by generating their own electricity via feed-in tariff. The feed-in tariff is what a household or a business can earn by generating their own electricity.

Are solar panels worth it?

Solar panels are only ever going to be worth it if you can afford them. Be careful if you need to take out a loan as the interest repayments might be higher than your returns. And while it's important to think about the money, lots of people see the environmental impact as the key reason to invest in solar panels.
