# How much does curtain wall solar cost in Poland

## Overview

---

The average price for a 5 kW installation is around 25,000 – 35,000 PLN, but it can be significantly reduced thanks to support programs. How much does a 5 kWp solar panel cost?

Panel manufacturers recommend overstating the rated power of the installation by about 25-30%. Therefore, I will present here a cost estimate for a set with a rated power of 5 KWP, instead of 4 KWP as indicated by the annual consumption. The cost of setting up such an installation can range from 15 to even 30 thousand zlotys.

Who can apply for a photovoltaic installation in Poland?

The program is dedicated to households in Poland. Only domestic persons generating electricity for their own needs can become beneficiaries. You can apply for the program even if you purchased the installation after February 1, 2020. This means that you can qualify for the costs already incurred for a photovoltaic installation.

How much energy does a Polish House use per month?

Let's assume on average the annual energy demand of a house in the range of 4000 kWh (~330 kWh per month). We are talking about statistical consumption in a Polish home, where the use of an induction kitchen is used instead of a gas one and where a TV is quite often on.

What is the co-financing program in Poland?

The co-financing covers photovoltaic installations, energy storage and energy management systems. The program is dedicated to households in Poland. Only domestic persons generating electricity for their own needs can become beneficiaries. You can apply for the program even if you purchased the installation after February 1, 2020.
