

# How much does it cost to make solar panels

## Overview

---

How much do solar panels cost per square foot?

On average, solar panels cost \$8.77 per square foot of living space, after factoring in the 30% tax credit. However, the cost per square foot varies based on the size of the home. For example, the post-tax credit cost of solar panels for a 2,500-square-foot home is around \$20,000 for a rate of \$7.96 per square foot.

How much does a solar system cost?

Mounts and racking typically represent around 10% of the total cost of an average solar system. For a \$10,000 solar system, the racking system would cost approximately \$1,000. Prices can vary based on racking type, equipment quantity, and installation labour costs.

Do solar panels cost money?

For a cash purchase, your average monthly electric bill with solar panels is essentially flat fees that can't be offset by net metering and any leftover electricity bill (this mostly pertains to California). If you selected financing, the monthly payment represents your loan payment for a 20-year loan.
