

How much is the Norwegian energy storage power supply price

Overview

What is the price structure of electricity in Norway?

Price Structure Example: As reported by Statistics Norway for 2024 (households): Commercial/industrial bills have a similar breakdown except the electricity tax is near-zero (0.60 øre) and they typically receive no subsidy. (Also, very large users often negotiate bespoke supply contracts.)

What are electricity bills in Norway?

Electricity bills in Norway consist of four main components: the wholesale energy price, network tariffs, taxes, and any subsidies. For example, the 2024 average household price (including grid and taxes, excluding one-time support) was about 134.9 øre/kWh.

How do retailers pay for electricity in Norway?

Retailers typically pass this through in spot-based contracts, or bundle it in fixed-price deals. In 2024 the average spot price (area price) was about 60 øre/kWh. Network (grid) fees: Norway's grid companies (statnett for transmission, ~150 DSOs for local distribution) set regulated tariffs.

Does Norway have a tax on electricity?

All counties in Norway have the same tax rate for the consumption of electricity, apart from some parts of Troms and the whole of Finnmark, which are exempt. The Enova tax was 1 øre/kWh in 2021 and is the same for all households throughout the country. VAT is added after electricity price, grid rent and other taxes have been added.
