

Huawei makes solar panels in Angola

Overview

How many MW of solar power will be installed in Angola?

The projects will be installed in the Moxico, Lunda Norte, Lunda Sul, Bie, and Malanje provinces, adding 296 MW of solar capacity and 719 MWh of battery energy storage system to the Angolan grid. The facilities will provide electricity to power one million consumers. Clean energy firm MCA Group has been tasked with the construction of the projects.

Who is tasked with the construction of the Angola solar energy project?

Clean energy firm MCA Group has been tasked with the construction of the projects. An agreement for the provision of \$900 million in funding to support the implementation of the Angola Solar Energy Project was reached between Angola's Ministry of Energy and Water and the U.S. Export-Import Bank in June 2023.

Will a 150 MW solar plant help Angola?

An agreement for the development of a 150 MW solar plant was signed between Angola's Ministry of Energy and Water and UAE-based renewable energy company Masdar in Dubai last December. The 150 MW project will produce electricity to power 90,000 homes, contributing to job creation, emissions reduction and efforts to increase national electrification.

When did Angola start a solar project?

A final investment decision for the project was reached in December 2021. Angola started operations at two solar energy facilities – the 188 MW Biopio Solar Plant and the 96 MW Baia Farta Solar Plant – in Benguela province in August 2022.
