

India s Communications Engineering Bureau installs 5g base stations

Overview

How many 5G base stations are there in India?

India had 469,000 5G base stations at the end of February, according to the latest available figures from the country's Ministry of Communications. The ministry said the number of active 5G subscribers in the country surpassed 250 million in the period – in less than two and a half years since 5G was commercially launched.

Does India have 5G?

The Indian government has reckons 5G coverage now extends to all states and 99.6 percent of districts nationwide. India had 469,000 5G base stations at the end of February, according to the latest available figures from the country's Ministry of Communications.

How many 5G BTS are there in India?

The country's total 5G BTS count reached 504,588 as of the end of September, up from 498,135 in August. The latest figures mark a faster pace of rollout compared with the 5,615 new sites added in August, underscoring sustained investment by domestic mobile operators in 5G infrastructure.

Will Bharat Sanchar Nigam upgrade all 4G towers to 5G?

Meanwhile, state-run telecom operator Bharat Sanchar Nigam Limited (BSNL) will upgrade all of its indigenous 4G towers to 5G within six to eight months, local press recently eported, citing the country's Communications Minister Jyotiraditya Scindia, as saying.
