

Key energy storage projects in Northern Europe

Overview

How many energy storage projects are there in Europe?

There are 147 energy storage projects under construction in Europe, with a total capacity of 14 GW, according to the European Energy Storage Inventory, launched by the European Commission. The European Energy Storage Inventory comprises operational, under construction, permitted, and announced energy storage projects across Europe.

What is the European energy storage inventory?

The European Energy Storage Inventory comprises operational, under construction, permitted, and announced energy storage projects across Europe. A real-time dashboard for energy storage also includes their locations and technologies – chemical storage, electrochemical storage, mechanical storage, and thermal storage.

Which European country will add the most energy storage capacity by 2031?

Your country-by-country guide to the key players driving innovation in Europe's five fastest growing energy storage markets The UK is forecast to be the European country that will add the most energy storage capacity by 2031. But which will be the fastest growing energy storage markets in the European Union?

.

Who is leading energy storage innovation in Europe?

Here Tamarindo's Energy Storage Report highlights those players that have been at the forefront of storage innovation in Italy, Germany, Spain, France and Ireland in recent months.

Key energy storage projects in Northern Europe

[The changing shape of European energy storage , Wood ...](#)

Nov 26, 2024 · Energy storage has grown exponentially in Europe in recent years - and that pace is set to continue across the continent. So, how is the market evolving, and how can industrial ...

[Who are the key players driving EU storage deployment in ...](#)

Feb 22, 2024 · Italy, Germany, Spain, France and Ireland expected to be the leading EU countries for storage deployment between now and 2031 Tamarindo's Energy Storage Report brings ...

[The future of CCUS: Key trends and regional ...](#)

Sep 16, 2024 · Carbon capture, utilization, and storage (CCUS) technology is gaining momentum as the world races to meet its climate goals. In ...

[Europe's giant batteries: the four biggest ...](#)

Oct 27, 2025 · Discover the largest planned and under-construction battery energy storage projects in Europe as of mid-late 2025.

Carbon capture and storage in Europe: Slow but significant ...

Nov 26, 2025 · In 2025, Europe began deploying carbon capture and storage (CCS) at commercial scale. In Norway, Heidelberg Materials' Brevik cement plant became the first ...

14 GW of energy storage capacity under construction in Europe

Mar 13, 2025 · There are 147 energy storage projects under construction in Europe, with a total capacity of 14 GW, according to the European Energy Storage Inventory, launched by the ...

1.48GWh storage partnership to drive Europe's energy ...

Nov 28, 2025 · Credit: max.ku via Shutterstock. EVE Energy and Swedish energy storage system integrator Vimab BESS have signed a three-year memorandum of understanding (MoU) ...

The future of CCUS: Key trends and regional developments in Northern Europe

Sep 16, 2024 · Carbon capture, utilization, and storage (CCUS) technology is gaining momentum as the world races to meet its climate goals. In Northern Europe, various countries are setting ...

[14 GW of energy storage capacity under ...](#)

Mar 13, 2025 · There are 147 energy storage projects under construction in Europe, with a total capacity of 14 GW, according to the European Energy ...

[European Energy Storage Inventory , JRC SES](#)

European Energy Storage Inventory Real-time Energy Storage Dashboard Disclaimer: The European Energy Inventory Storage dataset is mainly based on public data and data from ...

[Europe's giant batteries: the four biggest planned/under ...](#)

Oct 27, 2025 · Discover the largest planned and under-construction battery energy storage projects in Europe as of mid-late 2025.

The changing shape of European energy ...

Nov 26, 2024 · Energy storage has grown exponentially in Europe in recent years - and that pace is set to continue across the continent. So, how is ...

Independent Energy Storage Projects in Northern Europe Key ...

Northern Europe has become a hotspot for independent energy storage projects, driven by renewable energy expansion and grid modernization needs. Countries like Sweden, Norway, ...

New EU Platform Highlights Over 1771 Energy Storage Projects

The European Energy Storage Inventory, developed by the Joint Research Centre (JRC) of the European Commission, is a new interactive platform that maps and analyzes over 1771 energy ...
