

# **Korea rooftop solar power generation system**

## Overview

---

How many rooftop solar power plants does Enel X Korea have?

Enel X Korea operates a total of 10MW of rooftop solar power plants in 15 locations across the country. Enel X Korea has launched its 15th rooftop solar power plant. The Enel X Korea 15th rooftop solar power plant is the first commercially operated power plant in Gyeonggi Province, located in Icheon.

What is Enel Korea doing in Gyeonggi Province?

As an official investor in the Gyeonggi Province RE100 business, Enel Korea is helping local companies achieve their sustainability goals through solar power generation and RE100 consulting. We will continue to develop and invest in renewable energy projects to help companies located in industrial parks in Gyeonggi Province.

How can Enel Korea help local companies achieve sustainability goals?

This is equivalent to planting 140,000 pine trees per year, and saving 576 tons of CO<sub>2</sub> per year. As an official investor in the Gyeonggi Province RE100 business, Enel Korea is helping local companies achieve their sustainability goals through solar power generation and RE100 consulting.
