## Overview

---

Can Kyrgyzstan transition to electric vehicles?

According to experts, Kyrgyzstan may face some problems requiring urgent solution when transitioning to electric vehicles. The streets of Bishkek. Photo: CABAR.asia In 2021, Kyrgyzstan, as part of the Paris Agreement, submitted an updated nationally determined contribution – NDC.

Which countries supply electric vehicles to Kyrgyzstan?

The main countries suppliers of electric vehicles to Kyrgyzstan are China, Japan and some European countries. China is a highly competitive supplier with competitive prices and a variety of models. “The country is starting to develop the infrastructure, including installation of charging stations in large cities,” said Iskender Sharsheyev.

Is Kyrgyzstan ready for electric cars?

“The country is starting to develop the infrastructure, including installation of charging stations in large cities,” said Iskender Sharsheyev. According to the representative of the Union, there is a prospect for popularisation of electric vehicles among Kyrgyzstanis.

Does Kyrgyzstan have a battery recycling system?

“Besides, Kyrgyzstan does not have a proper battery recycling system. Watch battery recycling is environmentally unfriendly, and batteries are simply thrown away and go into the environment and cause much damage,” said Vlad Ushakov.
