

# **Lithium power station factory in Australia**

## Overview

---

eLumina has officially opened a groundbreaking factory on the Gold Coast, marking Australia's first facility capable of manufacturing community lithium batteries and EV chargers. Where is Australia's first lithium battery factory located?

On October 29, 2024, eLumina officially opened Australia's first factory capable of producing community lithium batteries and EV chargers. Located in Yatala on the Gold Coast, the US\$20 million Manufacturing and Development Centre marks a significant step toward Australia's energy transition while creating up to 300 local jobs.

What is Australia's growing lithium-ion battery industry?

Australia's growing lithium-ion battery industry, driven by the increasing demand for renewable energy and electric vehicles. The Australian lithium-ion battery market is projected to grow at a compound annual growth rate of 16.90% during 2024-2032. In this article, we'll explore the top 10 lithium-ion battery manufacturers in Australia.

What are the top 10 lithium-ion battery manufacturers in Australia?

In this article, we'll explore the top 10 lithium-ion battery manufacturers in Australia, such as; Energy Renaissance, Magnis Energy Technologies, Custom Lithium, Lithium, Batteries Australia, Smart Lithium Batteries, Lithium Battery Systems, Novonix, Alpha-ESS, Enerdrive, dan VSPC. Last Updated on February 21, 2025.

Where are elumina batteries made?

A first-of-its-kind battery factory has officially been opened by eLumina on the Gold Coast, with its first model set to come off the production line in 2025. The \$20 million manufacturing and development centre is the first factory in Australia that will be capable of producing both community lithium batteries and EV chargers.

## Lithium power station factory in Australia

---

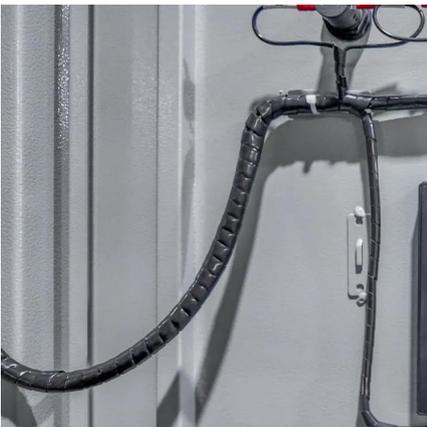

### [Australia's first EV battery and charger factory nears ...](#)
