

Lithium power station factory in Morocco

Overview

Why should Morocco invest in lithium & electric batteries?

Thanks to its natural resources, advantageous geographical position and strategic partnerships with global players, Morocco aims to become a regional hub for sustainable technologies for Africa and Europe by investing heavily in the lithium and electric battery industry.

Which Chinese lithium battery companies are based in Morocco?

Since 2023, several Chinese lithium battery industry chain companies, including CATL, Gotion High-Tech, Sunwoda, BTR, Huayou Cobalt, CNGR Advanced Material and Tinci Materials, have collectively invested in Morocco and built factories. The battery industry chain centered around LFP is forming rapidly.

Who is bringing a lithium refining facility to Morocco?

Writing on X, the Moroccan minister said he “had the pleasure” to welcome delegations from Korea’s LG Solution and China’s Yahua Group, who are leading an investment aimed at establishing a lithium refining facility in Morocco.

How is Morocco transforming the electric battery industry?

This success of the Moroccan automotive industry provides a solid foundation for new investments in the electric battery value chain to reach 400 billion dirhams by 2030. The country is consolidating its position as a leading player in the lithium and electric battery sector through ambitious projects with Asian and European p.
