## Overview

---

Who makes advanced lithium-ion batteries in the UK?

UK startup Volklec is to manufacture advanced lithium-ion batteries in the UK after reaching agreement with China's Far East Battery (FEB) to use its technology for the battery production.

Why is Birmingham a hub for lithium battery production?

Birmingham is increasingly recognized as a central hub for lithium battery production in the UK. The city's industrial legacy, combined with its strategic focus on advanced manufacturing sectors, has fostered a conducive environment for lithium battery makers.

Where will volklec manufacture advanced lithium-ion batteries?

Volklec will manufacture advanced lithium-ion batteries in the UK. A delivery partnership team of specialists from FEB in China will support production, due to begin later in 2025, from Volklec's launch base at the UK Battery Industrialisation Centre (UKBIC).

Is the UK leading the lithium battery market in 2024?

As we move into 2024, the United Kingdom stands out as a pivotal player in the lithium battery market, showcasing remarkable growth in production capabilities and technological innovation. This comprehensive exploration delves into the strategic supply chain centers within the UK, profiles the top six lithium ion
