

Lobamba Energy Storage Supercapacitor Manufacturer

Overview

Who makes supercapacitor in China?

Kamcap is one of the leading supercapacitor manufacturers in China. We supply high-quality ultracapacitors, including coin type supercapacitor, winding type supercapacitor, combined type supercap capacitor, module supercaps, high temperature supercap and hybrid capacitor.

What is a supercapacitor & how does it work?

Supercapacitors A supercapacitor, also known as an ultracapacitor or electric double-layer capacitor (EDLC), is an energy storage device that bridges the gap between conventional capacitors and batteries. Unlike batteries, which store energy chemically, supercapacitors store energy electrostatically.

What are supercapacitors & ultracapacitor?

Supercapacitors or ultracapacitors offer unique advantages like ultrafast charging, reliable operation spanning millions of duty cycles alongside wide operating temperatures and collaborative integration with batteries or fuel cells for energy storage applications.

How do supercapacitors store energy?

Unlike batteries storing charge chemically, supercapacitors rely on formation of electrical double layer of ions physically across large surface area electrodes sandwiching a thin electrolyte dielectric to store energy electrostatically. Advantages
