

MODERNIZATION SOLAR

Long-lasting warranty for photovoltaic energy storage containers used in shopping malls

Overview

How long does a solar module warranty last?

The policy covers losses sustained in relation to them over 20 to 25 years, in order to comply with the standard performance guarantee offered by the solar module manufacturers.

Why do you need warranty insurance for your energy storage system?

Our warranty insurance solutions help to secure your sustainable business in the long run. Energy storage systems often involve the complex integration of multiple high-tech components. These are all prone to failure and malfunction, particularly over long periods of ten years and more.

How long do energy storage systems last?

Energy storage systems often involve the complex integration of multiple high-tech components. These are all prone to failure and malfunction, particularly over long periods of ten years and more. As a manufacturer and system integrator you have to provide your customers with warranties.

How long does a warranty cover a module?

Manufacturer: The policy covers all modules manufactured throughout one year (for example, 2018) and sold within an agreed time (for example, six months) from the manufacturing date.
